Sugar-sweetened beverages (soda, sport drinks, fruit drinks) are the single largest source of added sugar in youths' diets. Because they offer so many calories and so little nutritional value, it is best not to drink more than two 8-ounce servings of sugar-sweetened beverages per week. Instead, choose water and low-fat (or fat-free) milk as primary beverage choices. Consume "sweets" only sometimes, and check food labels to avoid products with sugar in the first three ingredients.

**Have a safe, happy, healthy summer and we will look forward to seeing you again in August!!**

**Our menus meet USDA guidelines for calories, fat, saturated fat, protein, calcium, iron, and vitamins A and C.**

Menus subject to change.
