Sugar-sweetened beverages (soda, sport drinks, fruit drinks) are the single largest source of added sugar in youths' diets. Because they offer so many calories and so little nutritional value, it is best not to drink more than two 8-ounce servings of sugar-sweetened beverages per week. Instead, choose water and low-fat (or fat-free) milk as primary beverage choices. Consume "sweets" only sometimes, and check food labels to avoid products with sugar in the first three ingredients.

Have a safe, happy, healthy summer and we will look forward to seeing you again in August!!

Opaa! menus are created in accordance with USDA Regulation for Healthy, Hunger-Free Kids Act.
Choice of fat-free (unflavored or flavored) and unflavored low-fat milk offered daily.

• Menus subject to change. •
